WHAT OF THIS LOOPHOLE?

Another loophole, promising possibilities of escape for the most dangerous class of criminals known to the law, appears in connection with a legislative act of 1889, to be no conviction upon a plea of guilty for for patriotism is the female heart! crimes punishable by death or life imprison-

In relation to this matter an Albany despatch printed this morning says:

There are convicts in Sing angry father. sing and other prisons who are illegally held, Mr. Brown thinks, under the provisions of this law and who might be discharged upon writs of habeas corpus.

The state of affairs indicated in Mr Brown's statement is sufficiently startling. THEY HAVE A CLAIM.

Human nature is never so truly human as when it is humane. Charity is the cor. ner-stone of nobility in man or woman. The brotherhood of man is something that cannot be denied.

The relief of suffering is the most essential exercise of humanity. The greater the suffering the more destitute of friends and of means the sufferer is; by so much is aid for him the more imperatively required.

The poor children of this great city who are sick during the Summer are the strongest examples of this class of sufferers. Poor little innocent things! Born into the hardships of poverty, before their bodies are strong enough to bear rightly the strain of labor they succumb to the blight of sickness. Then what misery for them and for their parents, ill able to endure the added expense of doctors, medicine and care of the invalids.

Will you not help them? Will you not you are able? It need not be much. If every one who ought to help on this worthy cause were to contribute the most modest sum the aggregate would be large and abundantly sufficient. These poor children have as strong a

claim upon you as upon any one. Help THE EVENING WORLD'S Free Dootors Fund for the Sick Babies.

GIANTS AT THE TOP.

Our Giants head the list. That is the glory of the day, and while among the infinite possibilities of baseball there may lurk at some point a temporary reversal of good fortune, the thought thereof is not sufficient to sadden at this moment the full heart of the Gothamite. That superb ninth inning dash of yesterday, beneath which Chicago fell like a vanity of vanities, is still too fresh and too completely in mind and on a drum. to admit the depressing influence of any

There is a Chicago physician who deserves to lose his practice if the story told of him be true. A man with a gash in his forehead applied to him for treatment. The doctor first naked the man if he had any diner, as he put his hand in his pocket for a Then he found that the man's money was \$1.20 short of his fee. Getting him in the operating-chair again on some plausible pretext, the good doctor suddenly ripped open the wound, and then addressing the man insultingly, kicked him out. If the doctor grudged his time and work so much he could have economized on both by omitting the second operation. Nobody need to be told what to think of such a

doctor as that ! Another tearful example of the demoraltring effect of glory. A big Chicago policeman of fine athletic build posed as the model for the Haymarket Statue. A big, active whale is entitled to a good deal of respect from even a pretty goodsized craft. The gigantic mammal will shake up a sailing craft pretty badly. Experiments

ments to be made upon us with the new, cheaply made, crude, untried baking powders. Only baking powders thoroughly tested and proven by

long, practical use to be perfectly pure, reliable, and wholesome, must be permitted in our food. There is no experimenting when Royal Baking Powder is used. It has been the standard baking powder for over a quarter of a century, and its reputation is established as the finished, perfect leavening agent. It is always uniform, never fails in its work, makes food more palatable and wholesome than it can be otherwise made, and because of its greater leavening power, as shown by the Government tests, is the most economical of all the baking powders.

The U. S. Gov't Chemist says: "ROYAL BAKING POWDER is undoubtedly the purest and most reliable baking powder far superior to all others."

If any one attempts to experiment upon you, or with your food, by sending you any substitute for Royal Baking Powder, send it back.

A Tailor-Made Bride and a Non-

plussed Stall Keeper. In a close-fitting tailor-made dress and a light-colored cape of Persian lamb, she appeared before the stall keepers at a noted Harlem market. She carried a Russian leather note-book with a gold pencil, and the most artistic little willow basket imaginable. "Oh, the dear little piggies," she ex-

claimed, walking up to where a number of pigs were incarcerated. " How much are they a pair ?" "Forty shillings, mum," said the

"Isn't that pretty dear?" she asked. timidly. "I guess Pll take some oysters, instead," she said, walking over to where instead," she said, walking over to where the men were busy opening the emblems of silence. "I want some oysters sent up, escalloped oysters," she said, "with pienty of raisins in them."
"On! those lovely pure pumpkins," she said, walking over to a stand where a lot of Wollongong cheese was displayed.
"I'll take four of these. I know it's

A Coy Matron's Billet-Doux to Vain Young Man. If an observing man had stood at the

corner of the alley on the west side of State street between Monroe and Madison streets last Saturday afternoon, says the Chicago Times, he would have noticed a

Chicago Times, he would have noticed a plump and pretty little blonde woman with her arms full of bundles tripping southward.

If that person had noticed particularly he would have seen her throw a rougish glance at a good-looking young man who stood at the edge of the sidewalk, and at the same time extend one of her dainty gloved hands and drop a little piece of folded paper.

A close observer would have noticed that the young man standing at the edge of the sidewalk glanced furtively towards another man standing close by, who had watched the whole proceeding and whose actions indicated that he was either a city detective or some one ready to punish any man who would attempt to flirt with a pretty woman on the public street.

If the close observer would have had the temerity to glance over the shoulder of the young man who had been the recipient of the beauty's smile, and who finally mustered sufficient courage to pick up the note, he would have read just what the young man read, which was as follows:

8 yds. cloth, double width.

ust what the young man read us follows: 8 yds. cloth, double width. 6 yds. skirt lining. 2 yds. waist lining (silios). 1 yd. linen canvas. 1 spool silk. 1 braid.

1 thread

(Over).
36 yd. velvet.
1 boldt whalebones.
And then it would have dawned upon both observer and observed that they had been trifled with.

SOME FUNNY DEMANDS. Titles of Books Misquoted by Woulds Be Purchasers,

There's a broadly humorous side to the book trade, says London Tid-Bits. The fun is generally furnished by the ridiculous mistakes people make in the names of books. A lady sent her maid one day for Annie Thomas's novel of "He Cometh
